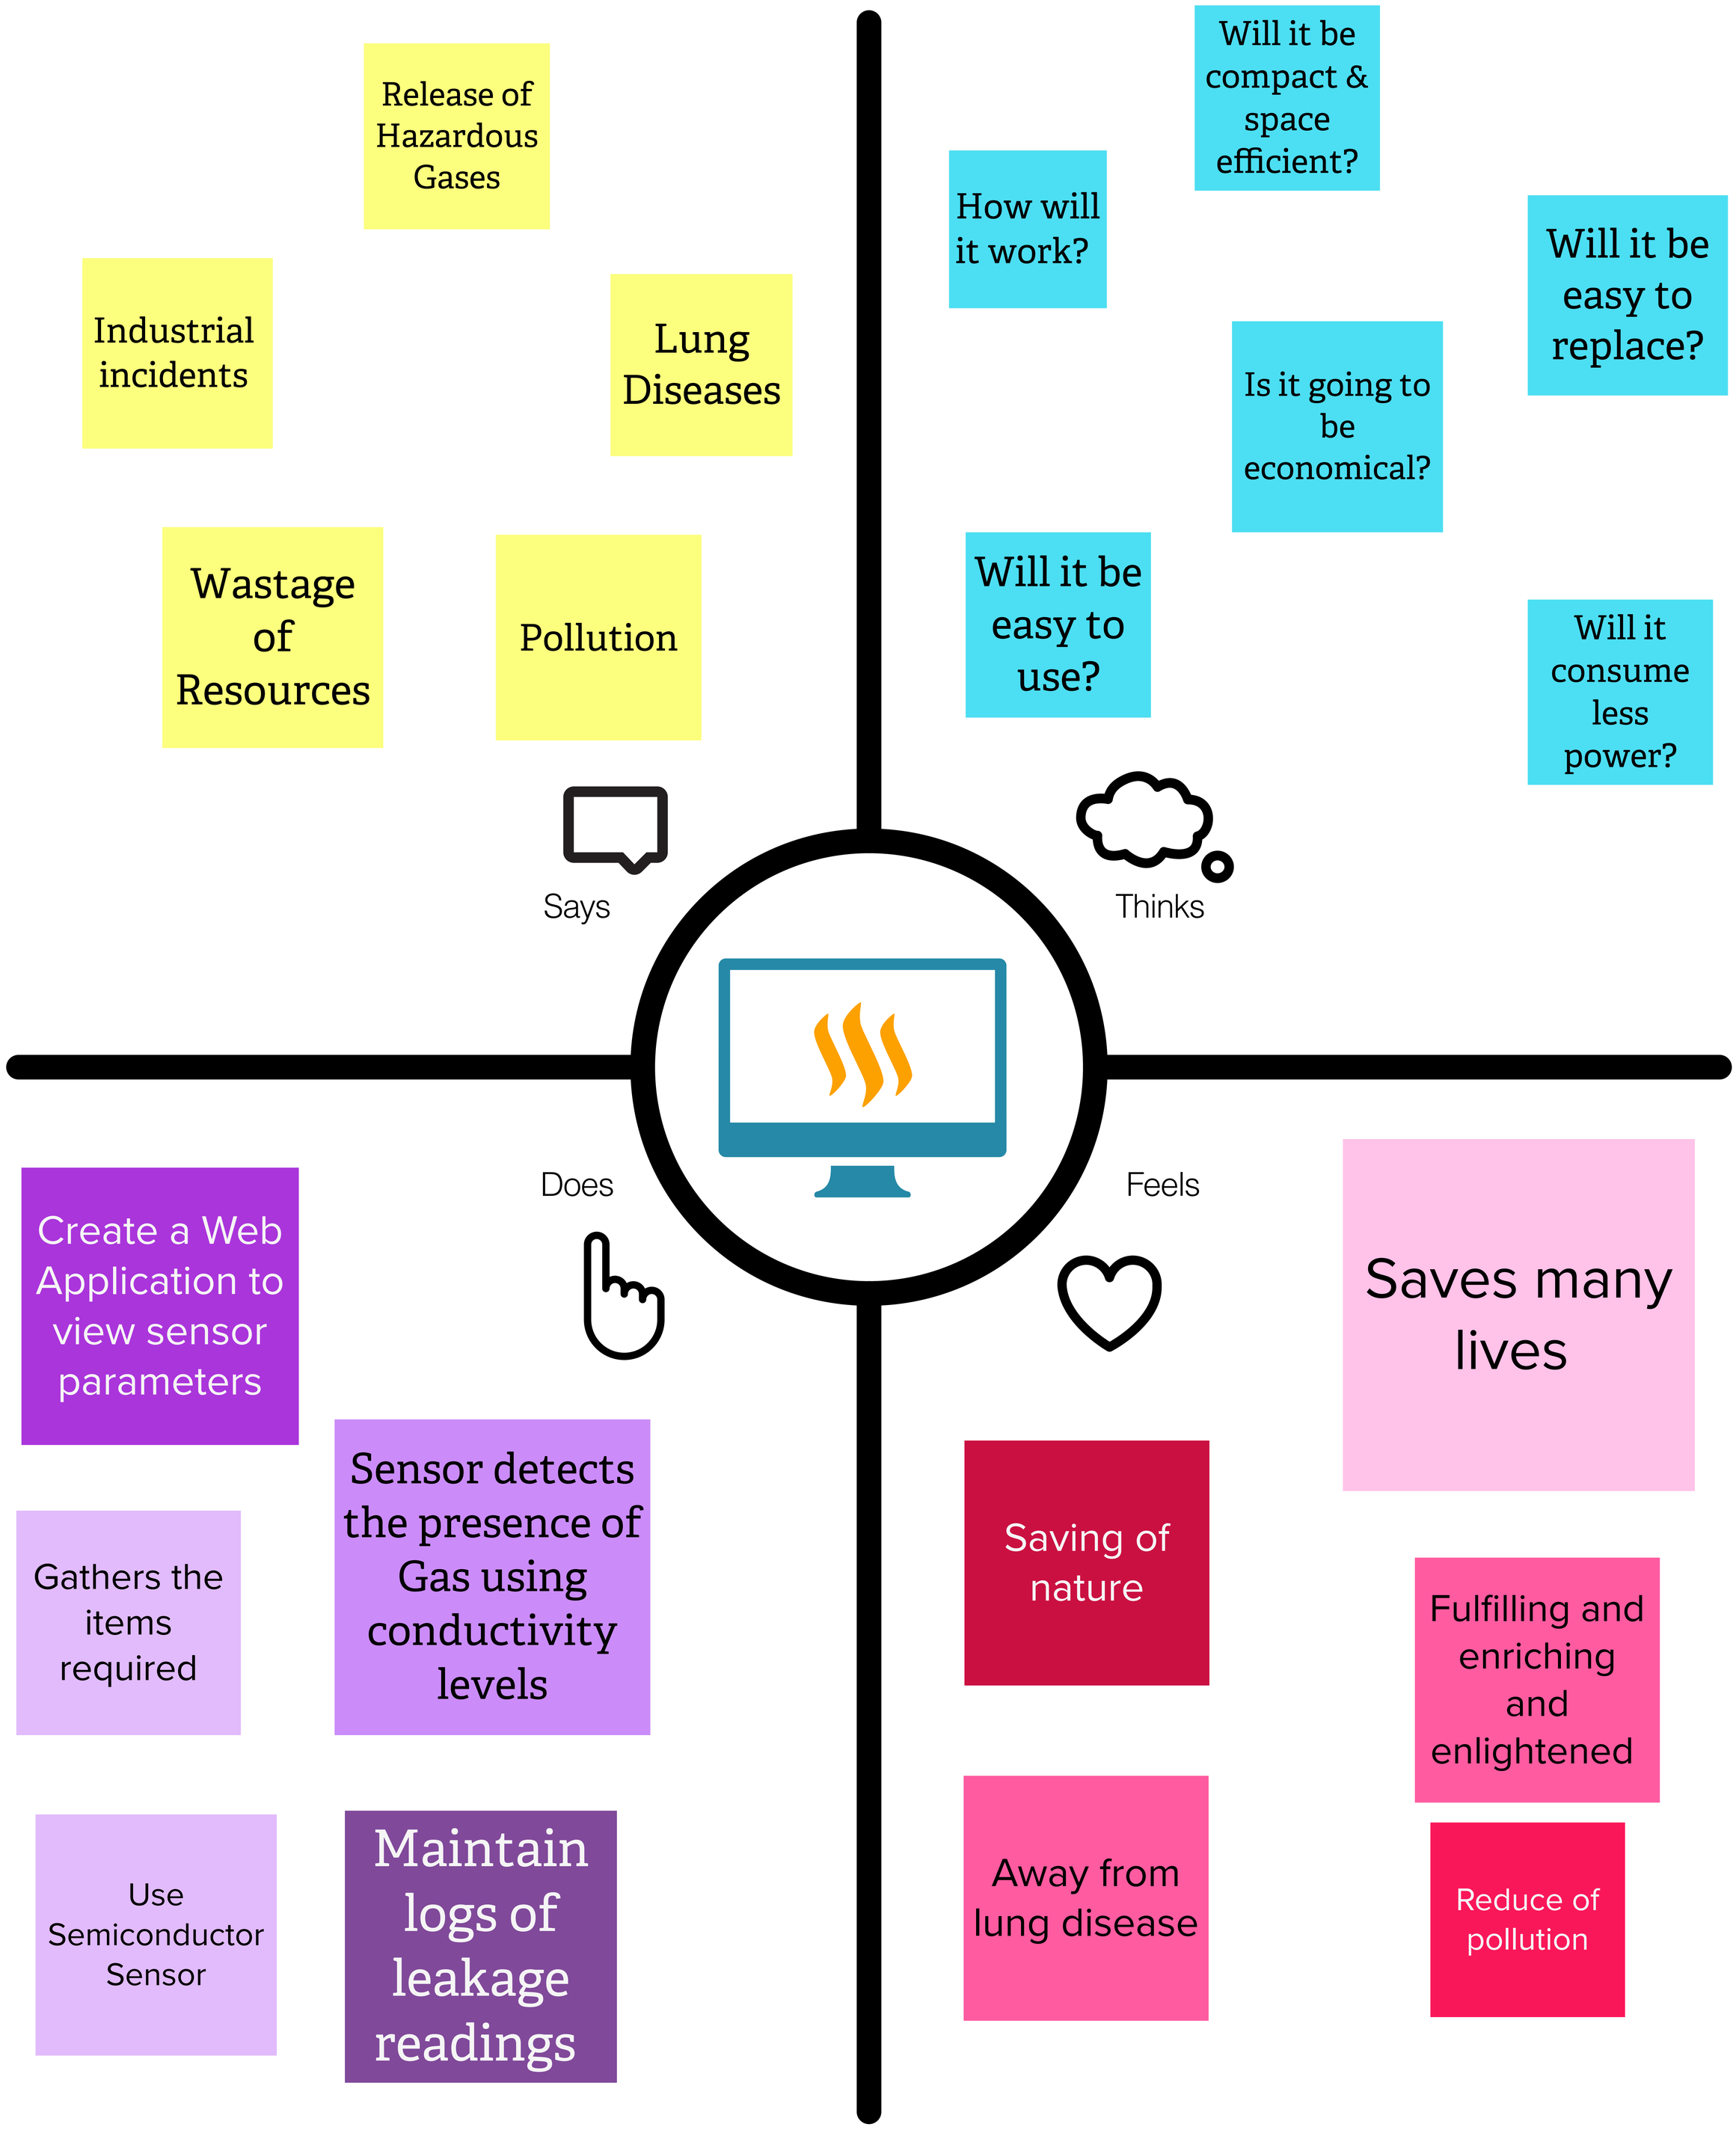
Empathy Map



Says
Thinks
Does
Feels
Industrial incidents
Release of Hazardous Gases
Lung Diseases
Wastage of Resources
Pollution
How will it work?
Will it be compact & space efficient?
Will it be easy to replace?
Is it going to be economical?
Will it be easy to use?
Will it consume less power?
Create a Web Application to view sensor parameters
Gathers the items required
Use Semiconductor Sensor
Sensor detects the presence of Gas using conductivity levels
Maintain logs of leakage readings
Saves many lives
Saving of nature
Away from lung disease
Fulfilling and enriching and enlightened
Reduce of pollution
