

IBM CLOUD SERVICE

Date	8 NOVEMBER 2022
Team ID	PNT2022TMID11052
Project Name	GAS LEAKAGE MONITORING AND ALERTING SYSTEM FOR INDUSTRIES

The screenshot displays the IBM Cloud Dashboard in a web browser. The browser's address bar shows 'cloud.ibm.com'. The dashboard header includes a search bar, 'Catalog', 'Manage', and a user profile 'Prasanna Venkatesan's...'. A 'Create resource' button is visible in the top right. The main content area is titled 'Dashboard' and features a 'For you' section with several cards: 'Build' (Explore IBM Cloud with this selection of easy starter tutorials and services), 'Explore IBM Cloud Shell' (Try a command-driven approach for creating, developing, and deploying a web project), 'Create and deploy an application' (Browse our starter kits, and then select one to jump start the process to create and deploy your app), 'Visit the IBM Cloud catalog' (Explore our unique product catalog that contains 190+ services and software for your business solutions), 'Build a web app with Watson Speech to Text' (Deploy a conversational interface compatible with any application, device, or channel), and 'Get Started with Studio' (Get started with IBM Cloud Studio in 15 minutes). Each card has a 'Getting started' button and a duration (e.g., 2 min, 5 min, 1 min, 15 min). Below the 'For you' section, there are links for 'User access', 'Manage users', 'News', 'View all', and 'Planned maintenance'. The bottom of the screen shows a Windows taskbar with a search bar, task icons, and system tray information including '25°C Partly sunny', 'ENG IN', and the date '18-11-2022'.
